

Multipurpose Cleaning Tool

- Designed for cleaning a wide range of surfaces

The Multipurpose Cleaning Tool (MPT) consists of a brush head rotated by a hydraulic motor. The MPT uses a mild acid cleaning solution dispensed through the brush head. The MPT is equipped with a flexible fishtail ROV handle.

Main features:

- Nylon brushing discs
- Requires low maintenance
- Fitted with Fishtail Handle for installation to ROV manipulators
- Removes marine growth
- All together supplied in a durable plastic Peli™ case

Dimensions (L x W x H) - 580 x 310 x 260 mm.
Weight (air) with hoses and brush - 15.9 kg.
Hose length (fitted) - 3.5 m.
Rotation - Reversible / Bi-directional.
Hydraulic fluid - Tellus 22 or similar.
